PERSONAL SOUND

IT'S TIME.

Audiодо is taking off and we're on the lookout for new talent! We are currently looking to expand our software test and quality assurance team.

The candidate is expected to take on a senior-level role and be involved in everything test and QA related. This includes performing tasks like test design, test automation, test execution in addition to larger-scope assignments like setting up test strategies and building the test team.

IS THIS YOU?

THE GROUNDWORK

Preferred qualities

- Previous experience in exploratory and risk-based testing
- Knowledge of Linux, Git, and scripting skills
- Proficiency in Swedish & English (written and verbal)
- A degree in Computer Science, Physics, Mathematics, Engineering or equivalent

THE EXTRAS

These will impress us

- Experience of non-functional testing
- Experience of test automation
- Experience of Python

THE JACKPOT

Wow! You really have it all, huh?

- Experience of testing back-end/cloud services
- Have some knowledge of security testing
- A passion for music

THIS IS US.

WE ARE AUDIODO

Headquartered in Malmö, Sweden, Audiодо utilizes the science of sound to provide a never-heard-before audio experience with our proprietary technology Audiодо Personal Sound. With over 30 years of experience in the audio and engineering fields, our determined audio experts and engineering wizards have developed a technology that is able to adapt audio to suit the unique hearing of each and every user.

OUR TECH

The technology consists of an app that determines the hearing characteristics of the user (which we re-skin for our customers) and processing algorithms that adapt sound in real-time (built into the Bluetooth chip of our customers' headphones). The result is a listening experience with an unprecedented depth, richness, and clarity.
